The digital education revolution

The Digital Education Revolution is a Federal Government initiative that the Fibre Connections to Schools initiative, a contribution of up to \$100 million to support the development of fibre-to-the-premises (FTTP) broadband connections to Australian schools.

- Collaboration with states and territories and Deans of Education to ensure new and continuing teachers have access to training in the use of ICT that enables them to enrich student learning.

- \$32.6 million over two years to supply students and teachers with online curriculum tools and resources to support the national curriculum and conferencing facilities for specialist subjects such as languages.
- The development of online learning and access that will enable parents to participate in their child's education.
- \$10 million over three years to develop support mechanisms to provide vital assistance for schools in the deployment of ICT.

... a Spirited School Community

rich and diverse in opportunities

When considering boarding options Ipswich Girls' Grammar School offers first-class boarding facilities for girls in Years 7 to 12 combined with the highest standards in quality education and pastoral care. With smaller class sizes, a challenging, caring environment and a rich, diverse co-curricular program, IGGS students achieve academic excellence and all-round success.

Located just 40 minutes from central Brisbane, IGGS is easily accessible to all major transport. Next time you are in town, arrange a personal tour to witness first hand what sets our School apart as the best boarding option for your daughter. Meanwhile call for a prospectus and application pack.

The initial target is a ratio of one computer to two students.

SECTION 6
ENVIRONMENT &
EDUCATION

This section brought to you in association with

School computer fund

The National Secondary School Computer Fund is the key component of the initiative. The Australian Government is investing \$1.1 billion over five years (2008–2012) through the Fund, to provide for new or upgraded information and communications technology (ICT) for secondary schools with students in years 9 to 12.

In June it was announced that 896 secondary schools across Australia would receive funding for 116,820 computers in the first Round of the Fund.

Through the Fund, grants of \$1,000 per computer have been provided. Funding will be delivered through state and territory governments for government schools and Block Grant Authorities for non-government schools. Bulk purchasing arrangements may deliver savings that can be used for associated costs. The objective of Round One funding was to bring those schools with students, in years 9 to 12, with a computer to student ratio of 1:8 or worse to a target ratio of 1:2.

In Round Two, the Government will be seeking to move all secondary schools to the target computer to student ratio of 1:2. By the end of 2008 funds will be available for all schools to move to a target ratio of 1:2.

Fibre connections to schools

Access to reliable, affordable, high speed broadband connections will strengthen the capacity of students, parents, teachers and the wider community to communicate, collaborate and access resources across system, State/Territory and national boundaries.

In recognition of this potential, the Government has committed \$100 million to the Fibre Connections to Schools (FCS) initiative. The FCS will contrib-

ute to the provision of fibre-to-the-premises (FTTP) broadband connections to Australian schools to deliver speeds of up to 100 megabits per second.

WHERE LEARNING COMES ALIVE

St Hilda's is an Anglican Diocesan day and boarding school for girls that has been serving rural communities of Australia for almost 100 years.

- Pre-Preparatory to Year 12
- Boarding from Year 6
- Concern for individual needs
- Commitment to academic excellence
- Caring and experienced staff
- Wide choice of cultural activities
- Excellent sporting facilities
- 14-hectare campus

You are invited to visit St Hilda's at any time to meet academic and boarding staff and tour the School's facilities.
