

IF WE'RE EMPTY, SEND US PACKING.

RETURN YOUR EMPTY DRUMS AND SCHÜTZ IBCs TO YOUR RESELLER TO BE RECYCLED.

With spring in full swing, there's no better time to clean up the farm and return your empty drums and SCHÜTZ IBCs to your local reseller.

When returnable drums and IBCs are not returned, SCHÜTZ need to make new containers in order to meet demand and help ensure continuous supply of crucial crop protection products.

Manufacturing new containers increases supply chain costs - not returning empties may end up costing you more than just a messy farm!

Don't leave your empty drums and IBCs lying around the farm. There is no charge to return, so get them back to your local reseller and SCHÜTZ will arrange recycling. Together we can work to save money, resources and the environment.

Make sure you don't expose yourself or workers to chemicals by cleaning drums prior to disposal, that's our job. Simply send them back to SCHÜTZ so you can get on with looking after your farm.

"C'MON OLD MATE,
GOT TO GET YOU BACK
TO SCHÜTZ."

GOT A LARGE STASH ON THE FARM?

Contact SCHÜTZ directly to organise an on-farm collection on 1800 336 228 or email salesau@schuetz.net
